Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-37 and 40-43, drawn to a computer implemented method for defining composite variables that represent the performance of elements and value drivers and a computer implemented method for valuing one or more elements of a business enterprise on a specified valuation date, classified in class 705, subclass 7.
- II. Claim 38, drawn to a computer-implemented method for valuing one or more growth options of a business enterprise using an option pricing algorithm, classified in class 705, subclass 7.
- III. Claim 39, drawn to a computer-implemented method of preparing a Value Map for a business enterprise on a specified valuation date using a copywritten Value Map, classified 705, subclass 7.
- 2. Inventions group II (claim 38) and group III (claim 39) are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention of claim 38 has separate utility such as using an option pricing algorithm for determining prices of manufacturing products. See MPEP § 806.05(d).
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an

election of the invention to be examined even though the requirement be traversed (37

CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any

amendment of inventorship must be accompanied by a diligently-filed petition under

37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
